

Storm Data and Unusual Weather Phenomena - November 2013

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
WISCONSIN, Southwest				
(WI-Z032) BUFFALO, (WI-Z033) TREMPLEALEAU, (WI-Z034) JACKSON, (WI-Z042) MONROE, (WI-Z043) JUNEAU				
	11/01/13 00:00 CST		0	Drought
	11/30/13 23:59 CST		0	

During the first week of November, 1 to 2 inches of rain fell across western into central Wisconsin. This helped the lingering drought, lowering the drought status to moderate across all of Juneau and Monroe Counties. However, this was not enough rain to have a significant impact in other parts of western Wisconsin and the severe drought continued across the northern halves of Buffalo and Trempealeau Counties into the northwest corner of Jackson County.
